RENEWABLE

A SOLAR COMPANY

Letter from GRG RENEWABLE

Dear Customer,

GRG Renewable welcomes you as you begin your journey toward bringing solar energy into your home. We are committed to being your trusted partner by providing high-quality, safe, and reliable solar solutions designed to meet your family's energy needs.

Our Experience and Track Record:

- Successful installation of more than 500 kW of residential and commercial solar PV systems
- Installation and supply of over 200 solar streetlights across various locations
- Installation and sales of multiple solar-powered water pumping systems and other solar-related equipment nationwide

We may not be the cheapest option, but when you choose us, you are choosing a solar system that is safe, high-quality, and built to industry standard, giving your family reliable, worry-free, and cost-saving energy right on your roof.

We look forward to the opportunity to be your trusted partner and to support you throughout this project.

Thank you very much!

Warmest Regards,

Gordon Lozada Bautista
Director

WHAT WE OFFER

Services

End-to-end solar solutions for homes and businesses — from first consultation to long-term care.

Residential

Custom solar solutions for homes and businesses to reduce energy costs and promote sustainability.

PV System Engineering, Procurement & Construction (EPC)

End-to-end EPC services ensuring high-quality, efficient, and reliable solar installation.

EV Charger Installation

Convenient and safe EV charging solutions for your home or business.

Maintenance & Cleaning

Regular maintenance and cleaning services to keep your solar system performing at its best.

Consultation

Expert advice and tailored recommendations to help you make the right energy decisions.

What we stand for

Our Core Values

1

INTEGRITY

We conduct our business with honesty, transparency and accountability

2

COMMITTMENT

We are dedicated to delivering quality solution and excellent service.

3

INNOVATION

We embrace new ideas and technologies to create better,smarter energy solutions.

4

SUSTAINABILITY

We are committed to protecting the environment and building a greener future.

5

TEAMWORK

We work together with respect, trust, and collaboration to achieve our goal.

OUR PEOPLE

Company Structure

Rafael Maceda
President

Gordon Bautista

Executive Assistant

Patrick Asuncion
Project Engineer

Charles Rodriguez
Project Engineer

A lean, hands-on team — every project is led directly by our directors and project engineers, backed by dedicated support.

WHAT DRIVES US

Mission & Vision

Mission

To become the trusted renewable energy partner of Filipino homes, businesses, and communities through innovative and affordable solar solutions.

Vision

To deliver reliable and efficient solar energy solutions through trusted expertise, innovative technology, and exceptional service, making clean energy more accessible while helping Filipinos reduce energy costs.

OUR WORK

Featured Projects I

HYBRID SOLAR INSTALLATION

Marikina City

A hybrid solar PV installation completed in Marikina City, combining grid-tied and battery-backup capability for reliable, uninterrupted power.

EXTENSIVE WOOD PROCESSING CORPORATION

Dalandan, Valenzuela City

A 240 kWp grid-tied installation for Extensive Wood Processing Corporation — one of our largest commercial rooftop systems to date.

GRID-TIE INSTALLATION

Muntinlupa City

The GRG Renewable team successfully installed high-efficiency solar panels on a residential rooftop using a grid-tie system.

6.3 KWP HYBRID SOLAR PV SYSTEM

Pasig, Metro Manila

Successfully completed a 6.3 kWp hybrid solar PV system installation in Pasig, Metro Manila.

GRG RENEWABLE

OUR WORK

Featured Projects II

6.3kWp GRID-TIE SOLAR PV SYSTEM

Quezon City

Successfully completed a 6.3 kWp Grid-Tied Solar PV System installation in Quezon City

5.04 kWp HYBRID SOLAR PV SYSTEM

San Pedro Laguna

Another hybrid solar solution successfully completed with a 5.04 kWp system in San Pedro Laguna

10.08 kWp HYBRID SOLAR PV SYSTEM

Mandaluyong City

The GRG Renewable team successfully installed high-efficiency solar panels on a residential rooftop using a grid-tie system.

5.2 kWp Grid-Tied Solar PV System

San Mateo Rizal

Successfullly completion of 10.08 kWp Hybrid solar PV System in Mandaluyong City

GRG RENEWABLE

OUR WORK

Featured Projects III

6.3 kWp HYBRID SOLAR PV SYSTEM

Las Piñas City

Installation of a 6.3 kWp Hybrid Solar PV System in Las Piñas City has been successfully completed, ensuring optimal system performance, energy efficiency, and long-term reliability

21.6 kWp HYBRID SOLAR PV SYSTEM

Makati City

Successfully completed the installation of a 21 kWp Hybrid Solar PV Systen in Makati City, delivering efficient, reliable and sustainable energy solution for long-term performance.

8.19 kWp HYBRIDSOLAR PV SYSTEM

Las Piñas City

Successfullly completion of 10.08 kWp Hybrid solar PV System in Mandaluyong City

8.19kWp HYBRID SOLAR PV SYSTEM

San Mateo Rizal

Successfully completed the installation of an 8.19kWp Hybrid Solar PV System in Quezon City, bringing smarter, cleaner, and more sustainable energy to our client.
